Address: **Plot No. 81, Sector 05, IMT Manesar, Gurgaon, 122051, Gurgaon, Gurgaon**
Price: **250,000.00 ?**

Effluent Treatment Plant Manufacturers: An Effluent Treatment Plant (ETP) is a facility or system designed to treat and manage wastewater or effluent generated by industrial, commercial, or municipal processes. The primary purpose of an ETP is to remove pollutants and contaminants from the wastewater before it is discharged into the environment or reused within the facility. The specific design and operation of an ETP can vary depending on the type of effluent and the local regulatory requirements, but the general principles remain consistent.
