Address: **R31/ 32, 2nd Floor Jandu Tower, Vikas Marg, Shakarpur, New Delhi -, New Delhi**

Price: **110,090.00 ?**

Best Penetration Testing Course for Beginners with Certification 2023: What is Penetration Testing?

Penetration testing is a security testing process that involves simulating real-world attack scenarios on a network or system to identify potential security weaknesses. The goal of penetration testing is to uncover security flaws that malicious actors could exploit and to identify areas of improvement for the organization.

In addition to this, Penetration testing tools are used to scan for vulnerabilities, identify weaknesses, test for exploits, and provide detailed reports of the findings. The results of the tests can then be used to prioritize security investments and create plans for defending against security threats.
