Unbelievable revolution in brick making industry by Snpc Machines: Fully automatic mobile brick making machine by SnPC Machines, First of its kind of machine in the world, our brick-making machine moves on wheels like a vehicle and produces bricks while the vehicle is on move. This allows kiln owners to produce bricks anywhere and anytime, as per their requirements. Fully automatic Mobile brick-making machine can produce up to 12000 bricks/hour with a reduction of up to 45% in production cost in comparison with manual and other machinery as well as 4-times (as per testing agencies report) more in compressive strength with standard shape, sizes and another extraordinary provision exist i.e (that is) machine produced several brick sizes and it can be changed as per customer requirements from time to time. Snpc machines India is selling 04 models of fully automatic brick making machines: BMM160 brick making machine, BMM310, BMM400, and BMM410, (semi-automatic and fully automatic) to the worldwide brick industry which produce bricks according to their capacities and fuel requirements. Raw material required for these machines is mainly clay, mud, soil or mixture of both. These moving automatic trucks are durable and easy to handle while operating. These machines are eco-friendly and budget-friendly as only one-third of water as compared to other methods is required and minimum labour is enough for these machines. We are offering direct customers access to multiple sites in both domestic and international stages, so they can see the demo and then
