 Price: **Check with seller**

Find the ideal nutrient-rich medium of Coco coir for horticulture from CSMG COCO: CSMG COCO asserts to be the best platform to buy the 100% biodegradable and organic Coco coir for horticulture that is a perfect nutrient-balanced medium for suitable crop propagation. Such best-in-class coco coir items are fully devoid of harmful weeds while complying with the RHP standard for obtaining and ripening the coir fiber to meet the distinct requirements of the cultivators. These world-class coco coir chips happen to be highly versatile among other organic plant growth mediums. During the production process, the coir chips are soaked multiple times to mitigate their Electrical conductivity (EC) and sodium contents for suitably maturing the substrates, and meeting the specific tiller's agricultural needs.
