Ultimo Ceradisc: Advanced Ceramic-Embedded Roller Protection by Tega Industries: The Ultimo Ceradisc by Tega Industries is a high-performance solution engineered to extend the life of conveyor rollers in demanding industrial environments. These discs feature ceramic-embedded rubber construction with steel reinforcement, providing superior abrasion resistance and enhanced grip. The inclusion of opposite-threaded, two-sided stud bolts ensures secure locking and simplifies installation. Designed to combat wear and tear, the Ultimo Ceradisc enhances roller longevity and operational efficiency.
