Best Family Resort in Uttarakhand: Punarnava Resort & Spa stands as the crown jewel of family resorts in Uttarakhand. This family-oriented adventure at our resort will surprise and thrill visitors of all ages with its unique combination of fun, comfort, and sophistication. Organizers have fashioned every visiting experience with children in mind, in that one could enjoy things like kid-friendly trails through nature and family yoga. Guests enjoy personal privacy in commodious accommodations, as well as bonding activities, in large shared spaces. Dining is no longer a challenge for different tastes, and we have menus specifically made for children. Children get actively absorbed by supervised play areas where much learning happens through play in safe spaces. This also means that the parents would have time to pamper themselves with spa facilities and gentle passages through shades of greenery. It brings the whole family together in a splendid ambience with waterfalls cascading between tree-covered hills. The story-telling weekend under bonfire and star-studded skies creates a magical ambience. Punarnava, the magical space, blends luxury and entertainment into lifelong memories.
