White Carpet: A white carpet from Loop and Cut is the height of chic and minimalism. It can bring life to any room by uplifting the space to make it feel bright and airy yet luxurious. The Loop and Cut white carpets are made to be easy to care for and resistant to yellowing, which makes them the perfect piece for a minimalist or modern space. We offer a range of options to use as a layering piece or as the main rug for a bedroom, living room, or boutique office. There is something undeniably clean and timeless about a white carpet that works perfectly with any colour scheme.
