Address: 1/88, RDC, Raj Nagar, Ghaziabad, Uttar Pradesh, 201001 India, Ghaziabad, Ghaziabad

Price: 890.00 ?

PU based high pressure waterproof injection grout.: Star Leak Proof - is a low viscous, injection grout

composed of PU base formulated to be placed by free flow under gravity, or can be injected using a suitable hand or mechanical pump. The injection grouting system provides rapid strength gain and excellent penetration due to low viscosity, which helps the concrete obtain mechanical properties several times that of premium concrete. Due to the non-shrink nature of Star Leak Proof PU, concrete pores, capillaries, and cracks are completely sealed. The hardened grout is resistant to water ingress, stable in seawater, and impervious to freeze-thaw cycles. It is also resistant to most chemicals.
