Abhita Agro Industries Pvt. Ltd:

At Abhita Agro Industries Pvt. Ltd., we're passionate about transforming agriculture through innovation. With a diverse range of services and divisions, we cater to the unique needs of farmers, traders and agricultural businesses worldwide. Our expertise spans agriculture, farming, sustainable agriculture and smart farming

Digital Farming: Utilises digital farming software to revolutionize farm analysis and monitoring through digital technology or agricultural machinery.

Drone Farming: Advanced drones with sensors and cameras for crop analysis, monitoring, and optimization.

Contract Farming: Empower farmers through contract farming practices in the agricultural industry, promoting alternative livelihoods, and providing support services.

Trading: High-quality farming products, premium seeds for optimal crop performance, sourced globally through our agri commodity trading services.

Cattle Feed and Management: Providing high-quality cattle feed and also offers various services related to agriculture and animal management.

Orange Processing: Specializes in orange processing, particularly with their Sonala Oranges, known for organic farming methods, quality and taste.
