Mohindra Mechanical Works – Manufacturer of Advanced Printing, Coating & Slitting Machinery: Mohindra Mechanical Works is a well-established engineering company engaged in the manufacturing of advanced printing, coating, lamination, and slitting machines for the packaging and converting industry. Backed by strong technical expertise and modern manufacturing practices, we deliver machinery that offers high precision, smooth operation, and long-lasting performance.

Our wide product portfolio includes Rotogravure Printing Machines, Flexographic Printing Machines, Solventless Lamination Machines, BOPP Tape Coating Machines, BOPP Tape Slitting Machines, Doctoring Slitting Machines, Cantilever Slitting Machines, and Sticker Paper Gum Coating Machines. These machines are designed to handle paper, film, foil, and adhesive-based materials with maximum efficiency.

We at Mohindra Mechanical Works believe in quality, innovation, and customer satisfaction. Every machine is manufactured using high-grade materials and tested for performance before delivery. Our solutions are widely used in packaging, labeling, flexible packaging, adhesive tape manufacturing, and industrial converting applications. With dependable after-sales support and customized solutions, we strive to be a reliable partner for our
